IN THE NAME OF ALLAH THE MOST COMPASSIONATE THE MOST MERCIFUL

Abstract This research handles the question of human age whether it is a subject for longevity of shortness on account of certain reasons, as well as the possibility to change destiny and to prove that is not an inevitable predetermination. This is because His Almighty Allah says, "Allah doth blot out or confirm what He pleaseth: with Him is the Mother of the Book". (39/13). If the case is so, man can lengthen his age and increase environmental needs well. Nothing hinders man from doing so except his own sluggishness and fancy which may be untruly attributed to religion, but if he is able to overcome his sluggishness and false fancy, he will be able to enjoy faith, health and life in an Islamic society.
