

John Bull

Project Gutenberg Etext of History of John Bull, by J. Arbuthnot

Copyright laws are changing all over the world, be sure to check the copyright laws for your country before posting these files!!

Please take a look at the important information in this header.

We encourage you to keep this file on your own disk, keeping an electronic path open for the next readers. Do not remove this.

It must legally be the first thing seen when opening the book. In fact, our legal advisors said we can't even change margins.

****Welcome To The World of Free Plain Vanilla Electronic Texts****

****Etexts Readable By Both Humans and By Computers, Since 1971****

These Etexts Prepared By Hundreds of Volunteers and Donations

Information on contacting Project Gutenberg to get Etexts, and further information is included below. We need your donations.

Title: The History of John Bull

Author: John Arbuthnot

May, 2001 [Etext #2643]

Project Gutenberg Etext of History of John Bull, by J. Arbuthnot *****This file should be named jhnbl10.txt or jhnbl10.zip*****

Corrected EDITIONS of our etexts get a new NUMBER, jhnbl11.txt VERSIONS based on separate sources get new LETTER, jhnbl10a.txt

This eText was prepared by Les Bowler, St. Ives, Dorset.

Project Gutenberg Etexts are usually created from multiple editions, all of which are in the Public Domain in the United States, unless a copyright notice is included. Therefore, we usually do NOT keep any of these books in compliance with any particular paper edition.

We are now trying to release all our books one month in advance of the official release dates, leaving time for better editing.

Please note: neither this list nor its contents are final till midnight of the last day of the month of any such announcement. The official release date of all Project Gutenberg Etexts is at Midnight, Central Time, of the last day of the stated month. A preliminary version may often be posted for suggestion, comment and editing by those who wish to do so. To be sure you have an up to date first edition [xxxxx10x.xxx] please check file sizes in the first week of the next month. Since our ftp program has a bug in it that scrambles the date [tried to fix and failed] a look at the file size will have to do, but we will try to see a new copy has at least one byte
