### **Confrontation of Expulsion from Homes Between God's Manner and Actuality "A realistic Koranic Study"**

**Abstract:** This is a realistic Koranic study dealing with the problem of expulsion from homes and home lands in away based on two axes. The first one is God's manner as presented in faith and monotheism , the understanding of the Koran and practicing it , and educating and building up a fiducially generation following the way a jihad in the interest of God . The second axis is the human reality with the international laws and agreements it produces and also the means and planning which human effort sorts out to support the expelled and establishing the supporting center for conducting the universality of conflict. If the expelled adopt this fiducially realistic concept for confronting the expulsion the accompaniment, of God will be if it is God's will with them by support and enablement, no matter whether this happens at present or at any other time.
