**Abstract :** Researcher tackled a vocabulary " flexibility, and flexibility of Hadith" as it is used by Abu Zuraa al-Razi, in his description quoted by Imam Muslim in his book Saheeh. Researcher has collected the names of the narrators whom Abu Zuraa al-Razi described and studied their narratives; they are four . Study has ended to that two of the narrators are trustworthy and two are not trustworthy as described by Abu Zuraa but Imam Muslim compared them with other trustworthy so as to refute their weakness. God knows all.
